EEIC News

1 November 2008

New Chairman of EEIC Was Elected Unanimously

The handover represents the organization's maturity and stability.

During a Board of Directors Meeting in Chicago, USA on October 29, 2008

Rohn Grant, SI/EEM Business Line Manager Asia-Pacific of ELANTAS GmbH, was elected unanimously as the new Chairman of the Board of the Asia-Pacific Chamber of Electrical & Electronic Industries Ltd.

"I am delighted that my colleagues have placed their confidence in me for this challenging and important role," Rohn Grant said.

Rohn Grant is one of the founding members of EEIC and was the Vice-Chairman of EEIC since its incorporation in Hong Kong in 2004.

Retiring Chairman Mr. Peter Wong, president of The P. Leo Group, and the Founding Member of EEIC, said Rohn Grant's appointment is a clear sign that EEIC has matured.

"EEIC has moved from a foundation state to a steady state. Rohn understands the Board's role and is a great person of choice to keep the organization strong and focused," Peter Wong said.

During the meeting for recommendations of steering committee and selection of a new vice chairman, Jim Cox was elected unanimously as the Vice-Chairman of the Board of the Asia-Pacific Chamber of Electrical & Electronic Industries Ltd. Jim Cox is the President of Micrometals and is also one of the founding members of EEIC.

About EEIC:

The Asia Pacific Chamber of Electrical & Electronic Industries Ltd. (*hereinafter call "EEIC"*) is a non-profit organization which its members are invited from all Electrical and Electronic Industries, including material suppliers, producers, distributors, agents, lighting ballast, transformer, motor manufacturers, switching-power supply, coils, solenoids and other electrical and electronic devices & components, safety agencies and

consultants. Its mission is to strengthen the Electrical and Electronic technology and commercial information exchange in The Asia-Pacific Region including China; Hong Kong, Japan, Korea & South East Asia annually. The Association is designed to provide information about management, HR, technical and safety standards, registration, compliance and technical trends relevant to the worldwide industry through the Internet.
